Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. After careful reconsideration of this application, the restriction of previous office action is withdrawn. Now all claims are considered.
2. The indicated allowability of claims 190-195, 207-226, 237,238, 270-275 and 289-330 is withdrawn in view of the Kuslich et al. 5,489,307 reference. Rejections based on the cited reference(s) follow.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 172-189, 196-206, 243, 244, 247-269, 276-288, 331 are rejected under 35 U.S.C. 102(e) as being anticipated by Kuslich et al. (5,489,307). Kuslich et al. disclose an apparatus for use in performing human interbody spinal surgery comprising: a guard (31), a cap (100), a spinal distractor (col. 6, lines 5-29), a spinal implant (col. 4, lines 30-46), bone removing device (col. 6, line 30 to col. 8, line 52), inner guard (105), and an implant driver (164), as claimed.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 190-195, 205-242, 245, 246, 270-275, 287-330 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kulich et al. '307 in view of Codman (Signature Series 4 ruptured cervical intervertebral discs). Kulich et al. disclose all the limitations except for the presence of side openings/openings through side surfaces of a guard as claimed. Codman disclose a guard including side openings. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to employ side openings as claimed into Kulich et al. device in order for users to view an insert therein.
